THE "BULLETIN"

Appears to-day printed on a new "Bremner" Printing Machine, manufactured by Harrild & Sons, London. We are glad to be able now to redeem our promise of two or three months ago, "that our paper should look better after the arrival of our new press." We have other changes under contemplation, which will be effected shortly, and will still further improve appearances. We are under great obligation to the Catholic Mission for the use of the press on which the BULLETIN has hitherto been printed, kindly loaned us by them for that purpose.

THE WORKING OF THE LIQUOR LAW.

The first week of the new liquor law has passed by, and we are proud and glad to state that the native Hawaiian has behaved nobly under the trial. A restriction which has been a practical nonentity for years past, has been removed and the native Hawaiian is now on an equal footing in regard to liquor with those of other races. We have refrained previously from commenting upon the operation of the Act as we wished to see the effect of the Saturday pay-day on the traffic. And now that we have seen it we feel more confidence in pronouncing our judgments on it. In common with most others we expected to see a great increase in the cases of drunkenness brought up at the Police Court, but in this we have been agreeably disappointed.

There is no doubt that there has been more liquor drunk during the past week than heretofore, but the results have been not so marked. The Hawaiian takes his drink or several of them and goes home merry perhaps, but in most cases not obtrusively drunk.

As a matter of fact, the number of Hawaiians locked up for drunkenness during the past week has been small, compared with most other weeks—and compared with other nationalities in proportion to the population it has been extremely creditable.

Still we have the testimony of one prominent butcher to the effect that he has sold during this last week over \$100 less of meat to natives than during any previous week, and he had further stated that the coffee saloons in his neighborhood which depend on native support entirely have suffered so much that, if their business does not get any better than it was during last week, they will have to shut up their shops.

It therefore now remains for the Temperance Societies to use their influence to suppress the traffic by inducing the drinkers to become abstainers and thus lessen the quantity sold.

We await, with interest, accounts from the other islands as to the effect of the removal of the prohibition there.

Hila.

(From our own Correspondent.)

Our correspondent sends us the following under date of Oct. 4th: The enthusiasm shown by the natives upon the departure of Queen Emma for Kohala per Likelike on the 28th, has not been equalled since the visit of Lunailo, and it was the more noticeable as it was entirely spontaneous.

A Chinaman, cook on board the W. H. Reed, while on her trip to Kau, was knocked overboard and drowned on the 22nd instant, when the steamer was steaming down the Puna coast. He did not come to the surface, as he was doubtless stunned, and though every exertion was made to save him it was useless.

The volcano continues active.

THE P. C. A. of yesterday in referring to the increase in exports says: "This is the record of the country which is 'ruined,' because G. B. K. & P. are the King's Ministers."

We heard a gentleman say when his attention was called to this, "The P. C. A. is mixing up matters. This crop referred to was in and nearly matured before the 'wicked Ministry' left and the 'blight' could not affect it."

What we object to is that G. B. K. & P. have drawn too much in advance on the next crop. This money advance business is sure to be the ruin of the country.—Communicated.

THE equipments for the Hawaiian Army have arrived, they consist of full equipments for officers and soldiers, the same as those of the King of Prussia's body guard, costing there 28,000 marks or about \$14,000, which with freight per steamer, at \$1 per foot, makes quite a bill for the useless luxury (?). The police are soon to receive theirs; and are to be uniformed as military, Marshal Parke as a General, etc., etc., oh won't we be grand! Who is to foot the bill?—Communicated.

YESTERDAY MESSRS. Ashley & Fessler sent a well-borer to Kekaha Plantation, Kauai.

ONE-horse sweeping-carts are now in use at San Francisco. Why can't we get them here?

THE ladies of Honolulu intend to give an ice cream festival at Fort street Church, on or about the 26th instant.

IT seems to us that a large lot of medicines figure in that lady's outfit. Vide Freight list of D. C. Murray.

YOUNG man if those are the first pair of pajamas you ever owned, don't wear them about the streets; it is not the fashion here.

HER Majesty the Queen Dowager Emma has been enthusiastically received whenever she has been on Hawaii.

CAPT. JENKS has declined to rig up purchases to discharge the "doll's head," consequently the consignee has to hoist it out at his own expense.

WE heard that several prominent abstainers went the rounds of the saloons on Saturday night and purchased bottles of liquor for the express purpose of having it analyzed, and thus proving whether the new law will be effective in closing the saloons or not.

A VERY handsome and well arranged alphabetical list of subscribers to the Hawaiian Bell Telephone Company has been got up by Mr. F. Godfrey, and was circulated on Saturday. The special feature of this

list is its perfect alphabetical arrangement. The names and border are printed in red, and the advertisements in blue. We write this without a copy before us, although we are subscribers, and so cannot speak of its correctness, but we congratulate Mr. Godfrey on the excellent appearance of his list.

THE Makee is daily expected from San Francisco. She is due tomorrow.

MR. Wray Taylor will give his eighth free organ recital in St. Andrews' Cathedral, Tuesday evening Oct. 17th, assisted by Mrs. J. M. Lawlor and Prof. J. W. Yandley.

THE Hon. G. B. Palohau has been arrested for contempt of Court for not rendering the accounts of an estate administered by him when ordered to by the Circuit Court.

MESSRS. E. O. HALL & SON have received over a ton of rice-bird powder. There will great slaughter amongst the rice-birds now we suppose. Each can of it has a beautiful colored view of Diamond Head on the label.

MR. WALLACE, proprietor of the well-known Lodging House on Fort street, lately conducted by Mrs. White, offers that property for sale. The premises are centrally located and in excellent condition. It is not every day that so favorable an opportunity presents itself to would-be purchasers.

MR. M. McINERNY is now displaying a lot of beautiful Waltham watches in his window on Fort street. We inspected them yesterday and found the following worthy of special notice in our limited space, although all of them were really splendid. The prices are moderate, ranging from \$20 to \$250. The most useful kind was one which is warranted dust and water-proof. It can be had either with gold or silver hinge, and the case is solid sterling silver. Its peculiar feature is that the glass face and bezel screw off and on instead of opening with a hinge. The P. S. Bartlett gold watch next attracted our attention; its outward appearance is faithfully shown by the cut in our advertising columns, but the richness of the engraving must be seen to be appreciated. But the boss watch is the American Watch Company's gold watch, adjusted to heat, cold and position. On opening it and looking into the works the observer is startled by its extreme beauty. It is a perfect work of art inside and outside. Others, both ladies and gentlemen's watches, are equally wonderful in their varied designs and intricate engraving, and we can confidently assert that Mr. McInerny has a display of watches which cannot be beaten here for beauty or value.

A SPLENDID Opportunity is now offered to buy the Popular Lodging House recently occupied and conducted by Mrs. White, at 125 Fort street. The premises contain 1 store, 17 bedrooms, kitchen, dining and bath room. The rooms are all nicely furnished and in perfect order. For further particulars apply to present proprietor, F. W. WALLACE, 125 Fort st., Honolulu. 215

FOR SALE or to LEASE, a NICE COTTAGE, on the Plains, in a good neighborhood. The house is new and contains 2 bedrooms, with closets; parlor, dining room, pantry, bath, kitchen and sewing room. A nice large yard, with out-houses. Apply to H. J. AGNEW. 215 tf

Royal Hawaiian Agricultural Society.

COPIES of the Drafts of intended Rules of the Society may now be obtained from the undersigned members of the Organizing Committee.

Those desirous of joining the Society can do so by paying the annual subscription of \$5 to either of the undersigned. It is intended to hold the First Meeting of the Society during the third week of October, when the proposed Rules will be submitted for consideration and adoption, and Officers for the ensuing year will be elected.

How is it that no two persons in this town keep the same time. The whistles and bells and clocks seem to have agreed to differ. First one announces the hour and then another. There ought to be here, as in other countries, some fixed standard of time by which everyone could regulate their clocks. The Government ought to take this matter in hand, and pay a small trifle to take transit observations correctly, and have the time announced, say by the Fire-bell or the Kawaiahao Church Clock, or by Hopper's whistle.
